Software Engineering

Summary

Passionate Full-Stack Developer with a focus on writing high-quality code and a commitment to continuous learning. I thrive in collaborative environments, believing that the best solutions arise from teamwork and collective problem-solving.

Work Experience

APRIL 2023 - PRESENT

Full Stack Web Developer

Project Freelancer

Focused as a web developer within the Web Development Team, responsible for designing, developing, and maintaining responsive and user-friendly websites for clients, while ensuring optimal performance and seamless user experience across various devices and platforms.

Project :

Form-imod: Enhanced financial management for the Student Executive Board (DPM) and other student organizations by streamlining processes and improving functionality.

Inspektorat Natuna: Improved and upgraded the admin dashboard features for better monitoring and reporting capabilities.

Ispinasional: Added new features and resolved bugs within the admin dashboard to optimize system performance and usability.

SMPN 2 Tuntang: Developed new features for the admin dashboard, including an online examination system, and implemented bug fixes to ensure smoother operation.

IkanKakapMerah: A website focused on recording the arrival and departure of ships at the Immigration Office Class II Non-TPI Tobelo, North Halmahera, North Maluku, Indonesia. The system includes three roles: admin, officer, and agent (ship owner), each with distinct functionalities to ensure efficient and organized management of ship movements.

JULY 2021 – OCT 2022

Web Developer

PT. WAN Teknologi Internasional (Intern)

During this internship, diverse and valuable experiences in the development field were accumulated, significantly enhancing both knowledge and skills. The environment also highlighted the importance of effective communication in ensuring the seamless execution of projects and fostering optimal team engagement. Each experience here has contributed to strengthening capabilities as a proficient developer and a reliable communicator.

Project:

E-commerce Website Development: Designed and developed user-friendly, responsive e-commerce websites tailored to meet business goals and enhance customer experience.

Copywriting and Content Creation: Crafted engaging, high-quality content and persuasive copy to effectively communicate brand messages and drive user engagement.
